Welcome Message

Tanzania's mining sector holds extraordinary potential, waiting to be unlocked. For too long, while the world has rushed to benefit from our mineral rich soil, Tanzanians have hesitated, doubting our own capacity to lead. It is true that large scale ventures demand significant capital, yet the real opportunity lies in creating an environment where investors can thrive at lower costs by fully engaging the wealth of local resources and talent.

Today, as critical minerals from Tanzania gain global attention, the stage is set for unprecedented growth of the mining industry. This is a call to the private sector to seize the opportunities unfolding before us.

TwinRock Mining Ltd (TRL) stands as a testament to Tanzanian determination and capability. Our ambition is clear: to become the contractor of choice for every investor eyeing Tanzania's mining industry.

With unmatched insight into Tanzania's mining challenges and decades of proven service, TwinRock Mining Ltd (TRL) is uniquely positioned to deliver cost efficient operations that redefine industry standards. This is the moment for transformation leveraging the strength of local resources to position Tanzania as Africa's most competitive and lowest cost mining destination. We are here to Re-shaping mining cost profile to the lowest than never before.

Karibu Sana.!

EXECUTIVE SUMMARY

TwinRock Mining Ltd (TRL) is one of East Africa's fastest-growing mining contracting companies, built on vision, resilience, and expertise. Founded by partners with decades of hands on mining experience, TRL is proudly owned and operated by Tanzanians yet open to foreign investors and strategic partnerships. The company is driven by a clear mission: to become the mining contractor of choice for every investor investing in Africa's mining industry.

Our core services span from exploration, development, and resource management, delivered to international standards while leveraging locally available resources. This approach allows us to provide cost effective solutions that challenge the traditionally high costs of mining operations in Africa. With operations rooted in Tanzania and expanding across East Africa, TRL combines deep local insight with global best practices, ensuring reliable contracting services across diverse mining environments.

TRL's value proposition lies in reshaping mining cost profiles by maximizing local participation and redefining African expertise. Our competitive strengths include a strong foundation of seasoned industry professionals, ambitious engineers, and a proven ability to mobilize resources quickly and efficiently. Together, this powerful mix positions TRL as a symbol of African excellence, delivering results that meet global standards while creating lasting value for investors, communities, and the regions we serve.

OUR JOURNEY

The story of **TwinRock Mining Ltd (TRL)** begins with the vision of one determined individual who saw untapped opportunities in Tanzania's mining industry and set out to shape the future. After years of working alongside major mining investors, Dismas recognized how underutilized local resources were, and how they could transform cost structures and redefine the industry. His calling for greater local participation led him to support communities around the mines, offering free financial consulting, establishing local companies to work with foreign investors, and promoting community involvement as both a benefit to locals and a gesture of goodwill from investors.

Driven by a deeper understanding of the gaps and opportunities in the sector, Dismas stepped into a bigger mission: founding YAYA Resources with a partner who shared his vision. What began with two founders grew into a powerhouse of 300 employees in just four years. Backed by a strong equipment fleet and long term agreements, YAYA quickly earned trust across the industry becoming a name that resonated with every major investor, seen by some as a monumental change and by others as a formidable competitor. After consistent growth, asset acquisition, and building strong financial collateral, Dismas embarked on what he considered the lasting mission of his career: the creation of TwinRock Mining Ltd (TRL)

.

Today, TRL unites seasoned industry professionals with ambitious young engineers, blending decades of proven experience with fresh energy and innovation. This powerful mix enables us to excel across diverse mining environments and deliver results that meet global standards, standing as a true symbol of Tanzanian resilience, opportunity, and excellence

OUR MISSION, VISION & CORE VALUES

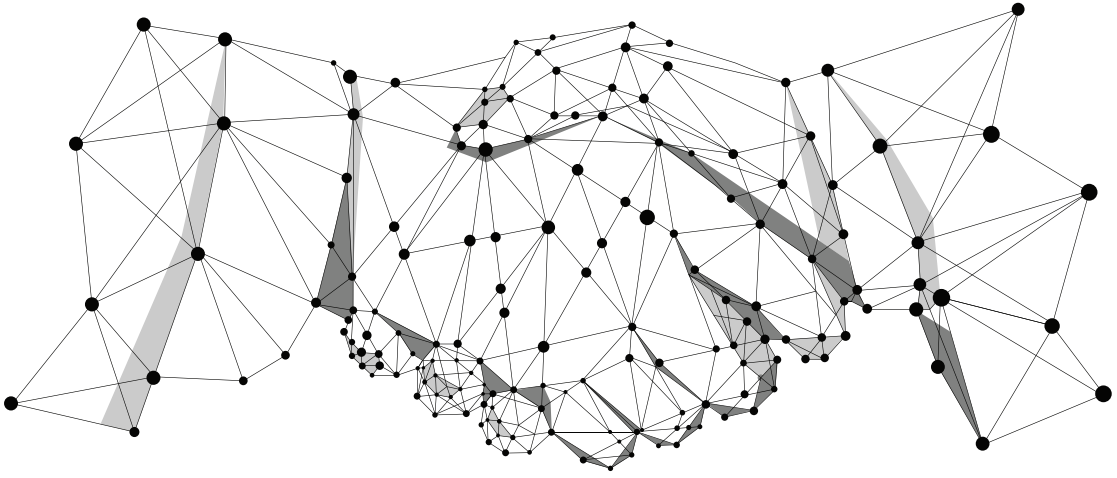

Vision
To be Africa's leading mining contractor by driving transformation, expanding local participation, and setting new benchmarks of efficiency, resilience, and excellence.

Mission
To reshape Africa's mining cost profile by delivering unmatched services that create lasting impact and measurable value. We combine local resources with global best practices to remain the contractor of choice for every investor.

P **People:** Our staff and the communities in which we operate are at the heart of our mission. We invest in their growth, safety, and prosperity, knowing that their success drives ours.

A **Assets:** Our equipment, infrastructure, and resources are the backbone of our operations. We safeguard and maximize their value to ensure efficiency, reliability, and long term sustainability.

C **Clients:** Our clients are our partners. We prioritize their goals, deliver measurable value, and build lasting relationships founded on trust, excellence, and shared success

OUR BUSINESS

We deliver end to end mining solutions that span exploration, development, and resource management, powered by world class equipment and expertise. Our equipment rental services provide access to a diverse fleet of heavy machinery, including excavators, wheel loaders, dozers, trucks and drilling rigs. To maximize efficiency, highly skilled operators, sideline with assembly of auxiliary and support fleet haulage support. This approach helps mining companies reduce upfront capital costs while ensuring reliable access to specialized equipment.

What truly distinguishes TwinRock is the strength of our fleet and the expertise of our team. With modern, high performance equipment and highly trained professionals, we execute complex projects with speed, precision, and reliability. This powerful combination enables us to deliver innovation, efficiency, and responsible mining practices at every stage of the process.

Drilling & Exploration

Drilling solutions for both underground and open-pit mining operations

Mining Hauling & Excavation

Hauling and excavation services that form the backbone of efficient mining operations

Rock Crushing & Aggregate Supply

Aggregate crushing and supply solutions tailored to the diverse demands of mining, construction, and infrastructure projects

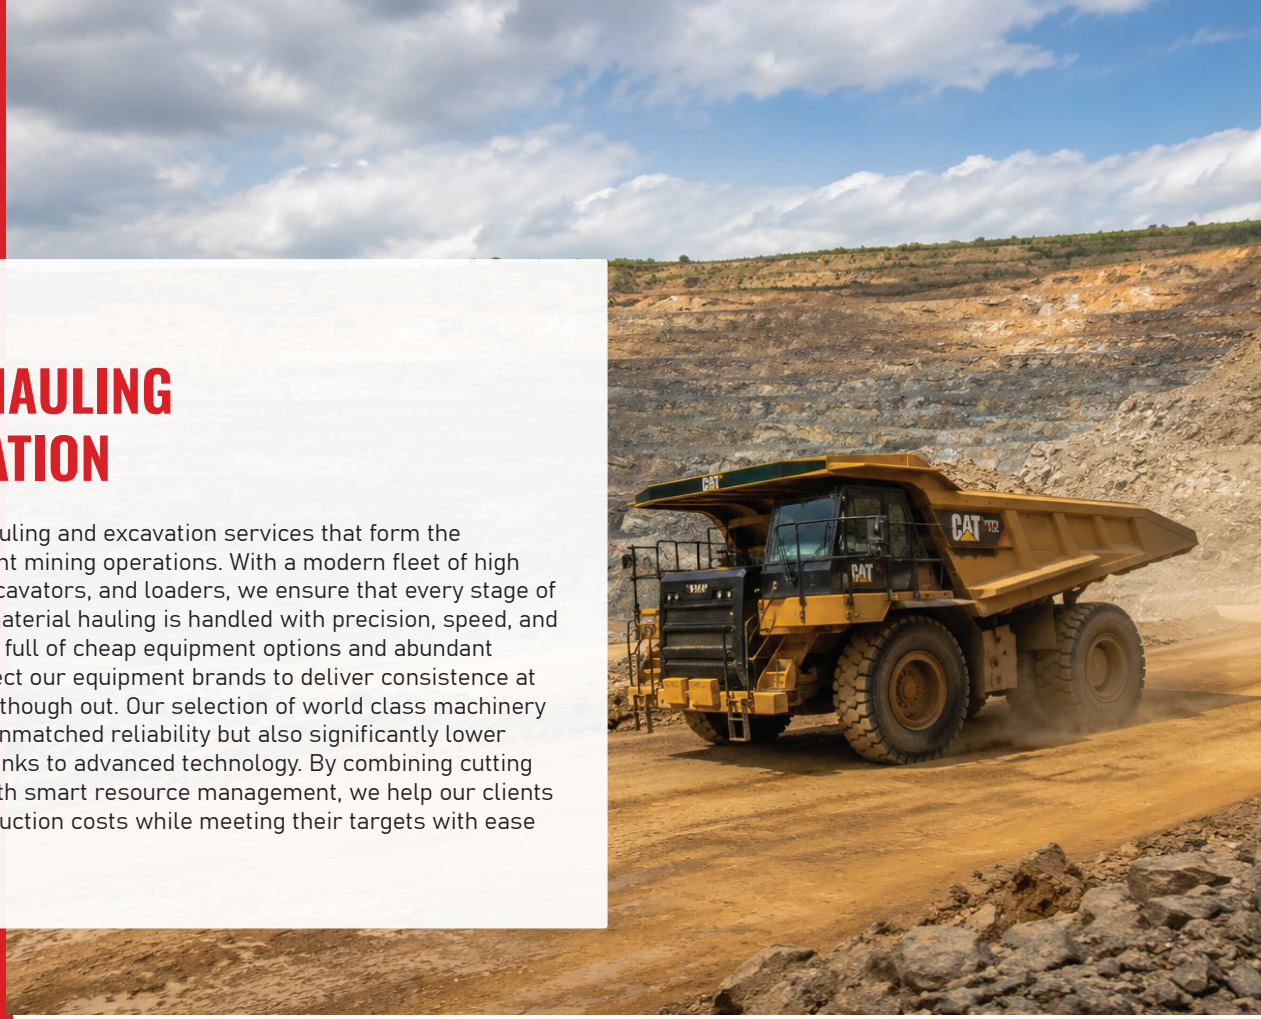

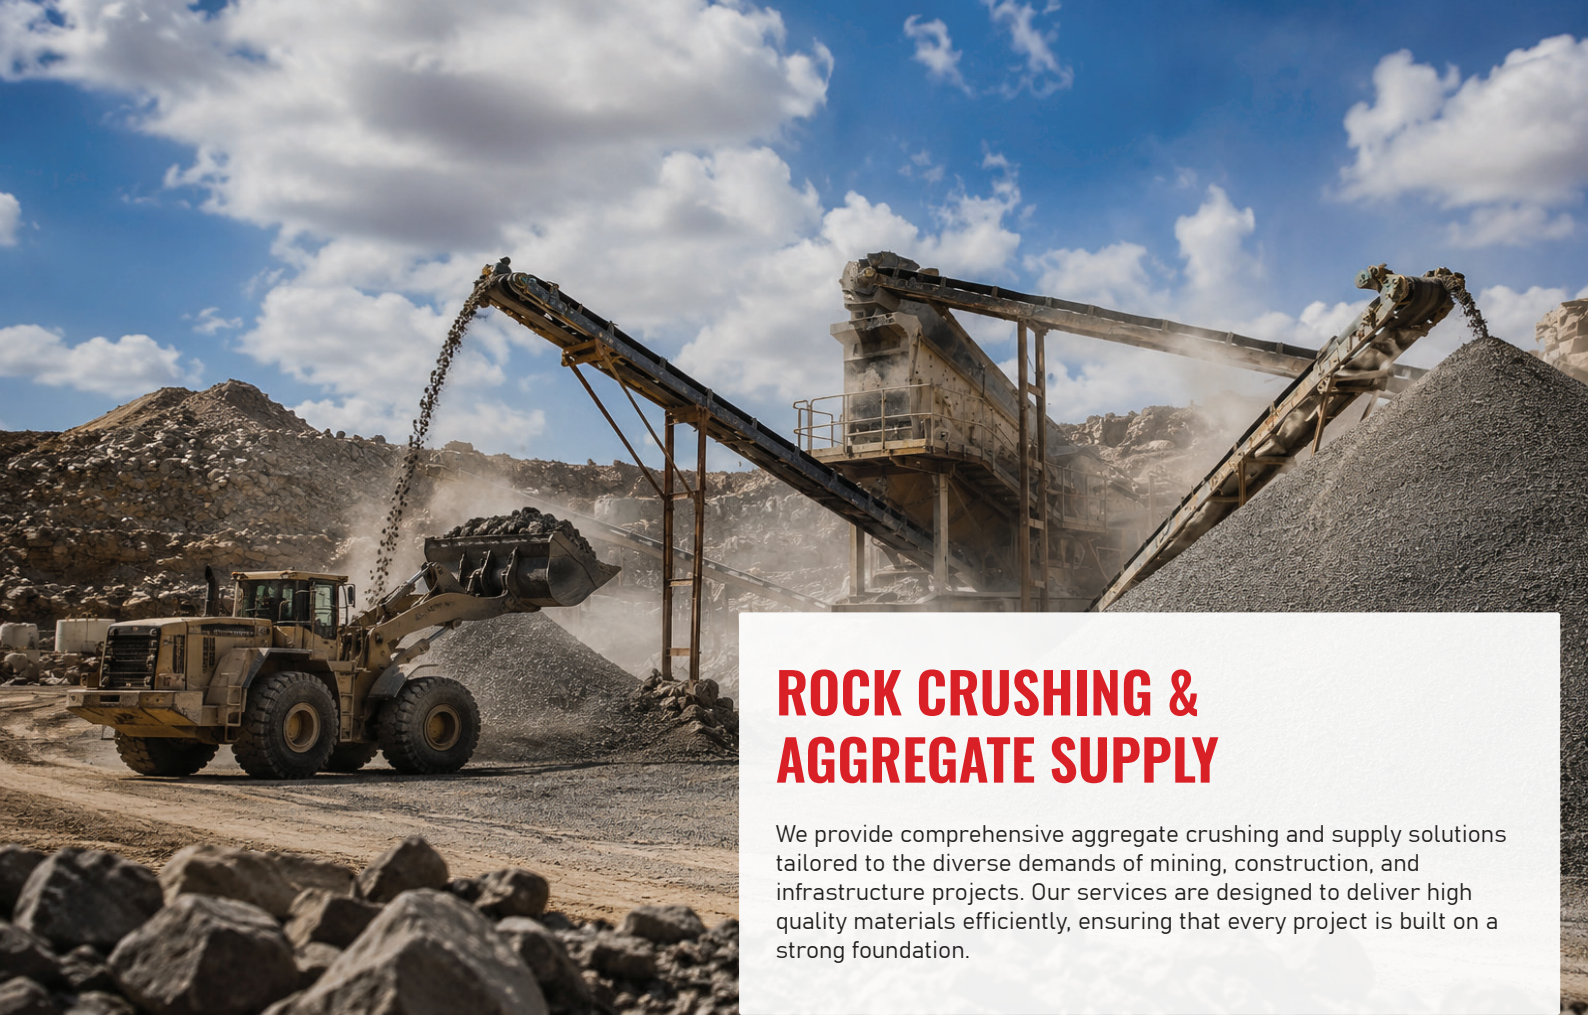

DRILLING & EXPLORATION

At TwinRock Mining Ltd, we deliver a powerful range of drilling solutions for both underground and open-pit mining operations. Our production drilling ensures efficient resource extraction with uncompromising attention to safety and environmental responsibility, while advanced exploratory drilling uncovers new opportunities for growth. We provide geotechnical drilling to analyze soil and rock conditions for engineering projects, and environmental drilling to safeguard compliance and sustainability. Our precise core sampling further equips clients with critical geological data for accurate resource estimation and exploration planning.

MINING HAULING & EXCAVATION

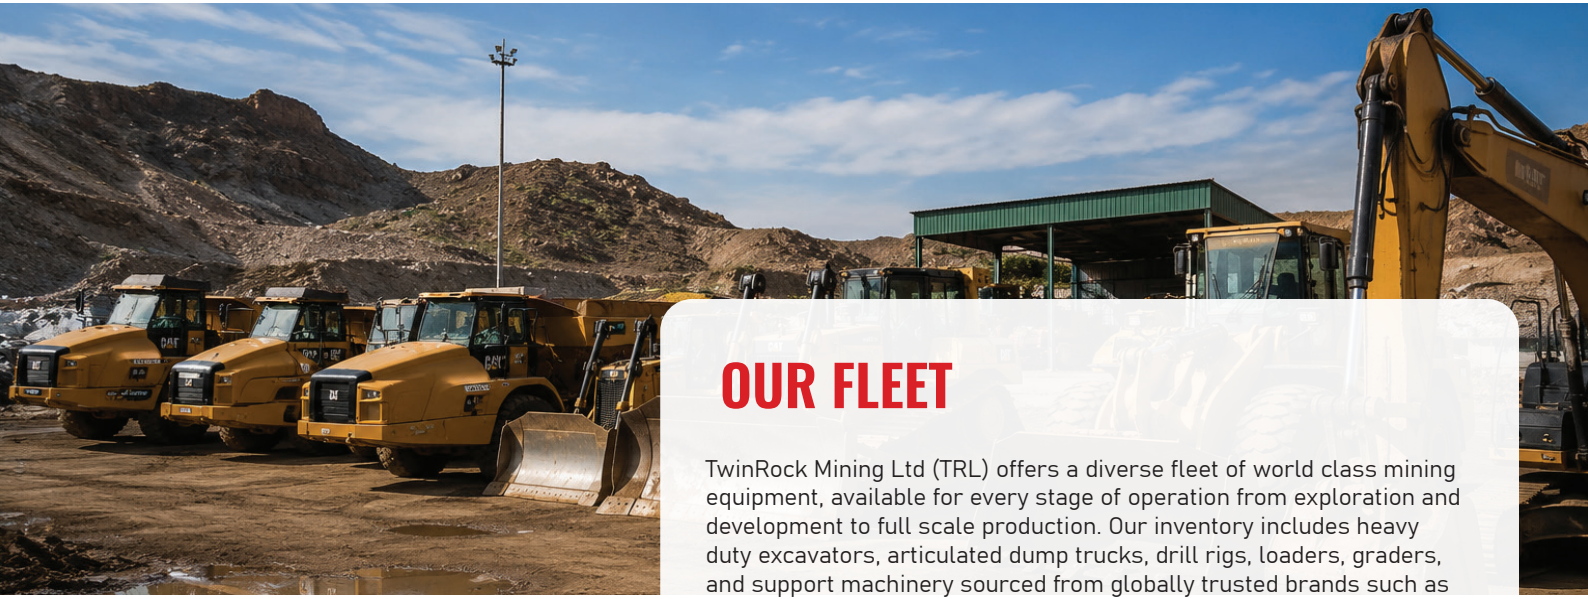

We specialize in hauling and excavation services that form the backbone of efficient mining operations. With a modern fleet of high capacity trucks, excavators, and loaders, we ensure that every stage of earthmoving and material hauling is handled with precision, speed, and safety. In the world full of cheap equipment options and abundant choices, we do select our equipment brands to deliver consistence at most performance though out. Our selection of world class machinery provides not only unmatched reliability but also significantly lower operating costs thanks to advanced technology. By combining cutting edge equipment with smart resource management, we help our clients achieve lower production costs while meeting their targets with ease and consistency.

ROCK CRUSHING & AGGREGATE SUPPLY

We provide comprehensive aggregate crushing and supply solutions tailored to the diverse demands of mining, construction, and infrastructure projects. Our services are designed to deliver high quality materials efficiently, ensuring that every project is built on a strong foundation.

OUR FLEET

TwinRock Mining Ltd (TRL) offers a diverse fleet of world class mining equipment, available for every stage of operation from exploration and development to full scale production. Our inventory includes heavy duty excavators, articulated dump trucks, drill rigs, loaders, graders, and support machinery sourced from globally trusted brands such as Caterpillar, Komatsu, Sandvik, Atlas Copco and Bell.

With equipment ranging from compact units for precision work to large capacity machines for demanding projects, we are equipped to handle operations of any scale. What sets us apart is not only the breadth and quality of our fleet but also our ability to mobilize equipment to any site in the shortest time possible ensuring projects start on schedule without delays.

WHY TRL?

Our quality is not just a standard, it is our competitive edge. We achieve this by embedding discipline, innovation, and accountability into every stage of our operations. And that is why we stand on lead!

WHY TRL?

Commitment to International Standards:
Every project is executed to meet or exceed global benchmarks in safety, quality, and sustainability, ensuring trust and confidence from clients and stakeholders.

Cost Efficient Operating Model
By harnessing local resources and blending them with global best practices, we provide cost-effective solutions that challenge traditional high mining costs.

Rapid Mobilization Capability
TRL is recognized for its ability to mobilize equipment and teams to any site in the shortest possible time, minimizing delays and maximizing project efficiency.

Modern Mining Fleet
We maintain a diverse fleet of world class equipment from trusted global brands, enabling us to deliver reliable solutions across exploration, development, and resource management.

Experienced Management
Our leadership team brings decades of hands-on mining expertise, ensuring sound decision making, operational excellence, and strategic foresight.

Tanzanian Ownership
Proudly owned and operated by Tanzanians, TRL reflects local commitment while remaining open to global partnerships.

PEOPLE & CAREERS

Our people are the foundation of our success. We bring together highly skilled professionals who embody our commitment to excellence and serve as ambassadors of our quality services. Central to our mission is their capability, experience, and satisfaction, which we nurture through continuous training and hands on development. United by shared values and a passion for excellence, our team collaborates seamlessly, driving innovation and delivering results that consistently exceed client expectations.

We don't just offer jobs, we build careers with purpose. Whether you're working on site or in our offices, you'll be part of a supportive, high performing team that values teamwork, integrity, commitment, and achievement. Our vision is for TwinRock to be the place where you grow, thrive, and ultimately retire with pride. We believe in developing people to align with our DNA, focusing on potential and passion rather than just experience.

We elevate the quality of our people by:

Investing in growth through training, mentoring, and career development
Rewarding excellence with competitive pay and both short and long term incentives
Championing diversity to create a workplace where everyone can succeed
Empowering impact in a dynamic, fast paced environment where your contributions truly matter

We are proud to be an equal opportunity employer, committed to building a diverse and inclusive workforce that reflects the communities we serve. At TwinRock, you'll find more than a career you'll find a future.

SUSTAINABILITY: HEALTH, SAFETY, ENVIRONMENT (HSE)

HSE is at the core of our operations and a vital part of our license to operate. We recognize that our success is inseparable from the wellbeing of our people, the communities we serve, and the environment in which we work.

Health & Safety
We foster a safe and secure working environment where the protection of our employees, contractors, and host communities is nonnegotiable. Safety is embedded in every process, with a commitment to zero-harm operations, proactive hazard mitigation, and strict adherence to international standards.

Environment
We uphold the highest standards of environmental management. By efficiently utilizing technology, human resources, natural resources, and energy, we actively promote recycling, waste reduction, and biodiversity protection. Our environmental stewardship not only reduces liabilities and costs but also ensures sustainable growth for future generations.

Community & Responsibility
The communities in which we operate are integral to our mission. We invest in socio economic development through employment, training, donations, and thoughtful planning. As responsible corporate citizens, we adhere to all laws, regulations, and ethical standards, taking swift action against malpractice and building lasting partnerships that benefit both TRL and the communities we serve.
